

THE UNSATISFIED

PUNK / HARD ROCK BAND

The Unsatisfied is a post-punk/hard rock band from Chattanooga, TN renowned for their powerful live shows, articulate compositions, and creative branding. The Unsatisfied began in the Southern underground music scene, rising to local fame and fast ascended to greater acclaim, becoming darlings of New York/New Rock and the CBGB's punk scene. Through perseverance and sacrifice, their raw talent made them stars of the award-winning documentary *Ambition Withdraw: Redux*, which covers the span of their work from inception to infamy. Their heavy sound and Avant-garde style has created a brand of Southern punk rock that is powerful, articulate, and addictive and has cultivated a dedicated following stretching across the US, Australia, and the UK.

Reviews

"While the band may be synonymous with the punk scene, their sound is more complex than that, running the gamut from punk to glam to prog rock to, in their words, "weird.""

Marc Michael -The Pulse

"The Unsatisfied; raw, high energy, rock & roll meets dangerous, punk rock, with precision. The Unsatisfied are a certified genuine American punk act straight from the south. They've played with many legends; their big rock energy & wild spectacle onstage feels like being hit by a rock and roll lighting bolt!"

Pete -Pete's Rock News & Views
